

**Announcements**

read the complete membership eligibility requirements and to initiate an online application.

**Active Member**

\$325.00 annually, plus \$50.00 initiation fee

Applicant must meet all membership criteria, including but not limited to:

- Reside within or have completed a cardiothoracic residency training program within the geographic limits of the Association.
- Have been engaged in the practice of thoracic and cardiovascular surgery for at least three years following completion of postgraduate training. If a candidate completed his/her thoracic surgical residency in an institution within the geographic limits of the Association, such completion may count toward one of the three years of practice.
- Have a full and unrestricted license to practice medicine in his or her respective state or province, and have a current appointment on the surgical staff of a hospital with no reportable action pending which could adversely affect such applicant's staff privileges at any hospital.

**Candidate Member**

\$100.00 annually

Applicant must meet all membership criteria, including but not limited to:

- Be matched or enrolled in either a cardiothoracic surgery education program accredited by the Residency Review Committee for Thoracic Surgery under the authority of the ACGME or a program approved for cardiothoracic surgery education by the Royal College of Surgeons of Canada—or their equivalency—from within the Association's geographic limits. Individuals who have completed their education in one of the above programs and are in the process of acquiring certification in cardiothoracic surgery by either the American Board of Thoracic Surgery or the Royal College of Surgeons of Canada also are eligible to apply for Candidate membership.

An application must include the following uploads: a photo; a complete curriculum vitae with bibliography; and, for Active applicants, the 3 most significant articles that s/he personally wrote. The application must be completed and submitted online by March 1, 2014, and all support letter(s) (three for Active applicants, one for Candidates) uploaded by that applicant's sponsor(s) by March 31, 2014, in order for the applicant to be considered for election to membership at the 2014 Annual Meeting.

**The AATS Graham Foundation****In Its 40th Year, the AATS Graham Foundation Announces New Specialty Programs**

Over the past year, new fellowship programs for medical students, fellows, residents, and international professionals have been developed that provide specialized educational and training opportunities.

**The Cardiothoracic Surgical Investigator Program** caters to cardiothoracic surgeons interested in conducting clinical or translational research, while the **Traveling Scholar Program** provides young cardiothoracic surgeons from around the world a chance to study clinical techniques at a secondary institution.

Our new **Resident Poster Session Scholarship** for thoracic surgical residents has become extremely popular and competitive, along with the **Critical Care Scholarship** program that boasts over 50 students expected to participate in 2014!

Along with our programmatic growth, we have engaged our Board of Directors to a full complement of eight, complete with two active board committees: Advisory Council headed by Dr Tim Gardner and Development Committee headed by Dr Raphael Bueno.

As our parent Association, the AATS underwrites all operational costs of the Foundation, allowing 100% of all individuals' contributions to go directly to Foundation programming.

The AATS Graham Research Foundation is *driving leadership, learning and innovation in the pursuit of excellence!* For more information on the AATS Graham Foundation, please visit <http://aatsgrahamfoundation.org>.

## The American Board of Thoracic Surgery

### Notices

The part I (written) examination was held on December 3. It is planned that this examination will be given at multiple sites throughout the United States using an electronic format. The closing date for registration is August 1 each year. Those wishing to be considered for examination must apply online at [www.abts.org](http://www.abts.org).

To be admissible for the Part II (oral) examination, a candidate must have successfully completed the Part I (written) examination.

A candidate applying for admission to the certifying examination must fulfill all the requirements of the Board in force at the time the application is received. Please address all communications to the American Board of Thoracic Surgery, 633 North St Clair Street, Suite 2320, Chicago, IL 60611 (telephone: 312-202-5900).

### Requirements for Maintenance of Certification

Diplomates of the American Board of Thoracic Surgery (ABTS) who plan to participate in the Maintenance of Certification (MOC) process must hold an unrestricted medical license in the locale of their practice and privileges in a hospital accredited by the JCAHO (or other organization recognized by the ABTS). In addition, a valid ABTS certificate is an absolute requirement for entrance into the Maintenance of Certification process. If your certificate has expired, the only pathway for renewal of a certificate is to take and pass the Part I (written) and the Part II (oral) certifying examinations. The names of individuals who have not maintained their certificate will no longer be published in the American Board of Medical Specialties Directories. Diplomates' names will be published upon successful completion of the Maintenance of Certification process.

The CME requirements are 30 Category I credits earned during each year prior to application. At least half of these CME hours need to be in the broad area of thoracic surgery. Category II credits are not allowed. Interested individuals should refer to the Booklet of Information for Maintenance of Certification for a complete description of acceptable CME credits. Diplomates will be expected to submit verification of CME earned.

Diplomates in the Maintenance of Certification process will need to provide a summary of their major cases performed during the year prior to application. The practice review should not exceed 100 cases.

Diplomates in the Maintenance of Certification process will be required to complete all sections of the SESATS self-assessment examination. It is not necessary for Diplomates to purchase SESATS individually, because it will be sent to them after their application has been approved.

Diplomates may apply for Maintenance of Certification in the year their certificate expires, or if they wish to do so, they may apply up to two years before it expires. However, the new certificate will be dated 10 years from the date of expiration of their original certificate or most recent recertification certificate. In other words, going through the Maintenance of Certification process early does not alter the 10-year validation. Diplomates certified prior to 1976 (the year that time-limited certificates were initiated) are also required to participate in MOC if they wish to maintain valid certificates.

The deadline for submission of application for the Maintenance of Certification is May 10 of each year. All ABTS diplomates will receive a letter from the Board outlining their individual timeline and MOC requirements. A brochure outlining the rules and requirements for Maintenance of Certification in thoracic surgery is available upon request from the American Board of Thoracic Surgery, 633 North St. Clair Street, Suite 2320, Chicago, IL 60611; telephone (312) 202-5900; fax (312) 202-5960; E-mail [info@abts.org](mailto:info@abts.org). This booklet is also published on the Web site: [www.abts.org](http://www.abts.org).

## Thoracic Surgery Foundation for Research and Education and Women in Thoracic Surgery

### Carolyn E. Reed Traveling Fellowship

It is with honor and sorrow that the Thoracic Surgery Foundation for Research and Education (TSFRE), in conjunction

with Women in Thoracic Surgery (WTS), announces the Carolyn E. Reed Traveling Fellowship.

Dr Reed was a thoracic surgeon, educator, and successful researcher; she died early and before her retirement. To honor her legacy, TSFRE in conjunction with WTS established this award, which will allow a clinically established female thoracic surgeon to travel
